# Mexico Eliminates Trucking Retaliation Tariffs Against Ag. Products

# **Report Categories:**

Agriculture in the Economy
Agriculture in the News
Country/Regional FTA's
Policy and Program Announcements
Trade Policy Monitoring

Approved By: Adam Branson Prepared By: Dulce Flores

## **Report Highlights:**

On October 21, 2011, the Secretariat of Economy (SE) published in the Diario Oficial (Federal Register) an <u>announcement</u> revoking the retaliatory import tariffs on 99 U.S. agricultural and industrial products. This elimination of tariffs was the second step in the cancelation of tariffs after signing a <u>bilateral memorandum of understanding</u> on July 6, 2011. The value of goods affected in the first seven months of 2011 exceeds \$787 million and the value of these goods in 2010 was in excess of \$1.5 billion.

#### **General Information:**

**Introduction:** This report summarizes an announcement that modifies the General Import and Export Tax Law of the Secretariat of Economy published in Mexico's Diario Oficial (Federal Register) on October 21, 2011.

**Disclaimer:** This summary is based on a cursory review of the subject announcement and therefore should not, under any circumstances, be viewed as a definitive reading of the regulation in question, or of its implications for U.S. agricultural export trade interests. In the event of a discrepancy or discrepancies between this summary and the complete regulation or announcement as published in Spanish, the latter shall prevail.

General Information: SE published on October 21, 2011, in the Diario Oficial an <u>announcement</u> revoking the retaliatory import tariffs on 99 U.S. agricultural and industrial products that was originally imposed on March 18, 2009 (see <u>MX9010</u>) when the U.S.-Mexico Cross-Border Trucking Demonstration Project was terminated. Tariff and lists of products were modified two more times, August 18, 2010 (see <u>MX0054</u>), and July7, 2011(see <u>MX1055</u>). Table 1, below, includes the value of these food and agricultural commodities assessed a tariff during the period of January to July 2011 (based on official Mexican data) as well as the new tariff. The tariff reduction follows the United States action on October 14, 2011, granting authorization to a Mexican carrier to operate cross-border long distance transport services.

	Table 1. 2011 Mexico: Trucking Retaliation List Imports From The United States U.S. Dollars

**Title:** Decree abrogating the diverse by amending Article 1 that establishes the Applicable Rate for 2003, of the General Import Tax, for goods originating in North America, published on December 31, 2002, with respect to goods originating from the United States of America.

### **Important Dates**

Publication Date: October 21, 2011
 Effective Date: October 21, 2011

**Background:** The Trucking Pilot Program (Mexico Cross-Border Trucking Demonstration Project) was an accommodation made between the United States and Mexico after years of dispute regarding delays to implementing NAFTA-related trucking obligations. The Pilot Program was established in 2007 as a step towards implementation of the NAFTA trucking provision. It allowed up to 100 trucking firms from Mexico to transport international cargo beyond the commercial zones of the U.S.-Mexico border and up to 100 U.S. trucking firms to transport international cargo into Mexico. Bus companies and hazardous material carriers were excluded.

The Trucking Pilot Program began on September 6, 2007, and was originally designed to run for one year. By an exchange of letters between the U.S. and Mexican Transportation Secretaries on August 4, 2008, the Trucking Pilot Program was extended for up to an additional two years to ensure that it could produce sufficient data to evaluate safety. In 2007, Mexico-domiciled motor carriers crossed into the United States approximately 4.8 million times, transporting an estimated \$215 billion of freight.

The Mexican Government modified the General Import and Export Tax Law published on March 18, 2009 due to the dissolution of the U.S.-Mexico Cross-Border Trucking Demonstration Project (see MX9010). Later, on August 18, 2010, SE published in the Diario Oficial an additional announcement in retaliation (see MX0054) for what was perceived as U.S. inaction. After signing a Memorandum of Understanding on July 6, 2011, SE decreased tariffs, as agreed, by 50 percent (see MX1055).
